Head of School Primary: Mrs Lorraine Hoad

Head of School Secondary: Mr Ben Godber

14th April 2026

Dear Parents / Carers,

Year 6 SATS Booster - Maths

Prior to the half term break, all Year 6 pupils completed assessments to help inform their teachers of their current attainment levels within maths and reading. Your child was identified as a pupil who would benefit from additional support in the form of an after school SATS booster session.

Mr Harding and Mr Jackson feel that your child will benefit from joining in with an extra **maths booster** where the focus will be on arithmetic and problem solving.

The club will be led by school staff and will focus on developing your child's fluency in mathematics and their application of knowledge and skills to a variety of reasoning and problem-solving questions. In addition, the sessions will boost the children's confidence to join in with questions in class with greater levels of independence. This is a fantastic opportunity in which your child will receive high-quality tutoring personalised towards their needs.

The club will run from 3-3:55pm every **Monday** and **Wednesday** of this half term (commencing from 15/04/26). Attendance at all sessions will be strongly encouraged, however, if there are certain dates your child is unable to make please inform your child's class teacher or the school office.

Please complete the consent form on SCOPay to give permission for your child to attend the club.

We thank you for your support and hope to see regular attendance from your child.

Kind Regards,

Mr Harding and Mr Jackson
Year 6 Teachers
